Event Overview

Are you considering retirement living on the beautiful Northern Beaches?
We'd love to hear from you!

RSL LifeCare is conducting focus groups to better understand the needs, experiences, and aspirations of people considering retirement village living as their next step. Your feedback will play a vital role in shaping the RSL ANZAC Village Renewal project, including future village designs, programs and services that will make life even better for future and current residents. Families are encouraged to participate, as their perspectives are just as valuable in this journey.

Why Participate?

Share your thoughts: Your insights matter! Help improve the quality of life for current and future residents, as well as providing invaluable insight from your lived experiences.
